Dir. Museo Provinciale S. Castromediano
Lecce, Italy

Dear Sir:

For the past year I have been studying the coinage of Metapontum. In your museum there is a rare stater of this city showing the figure of Apollo seated, facing to the right. Would it be possible for you to have a cast of it made for me - or, if that is not possible, a photograph?

If there are other pieces of Metapontum in your Collection, I should gladly bear the expense of having the casts made if you have someone who could do this for me. If not, if they could be photographed together with the other pieces, it would be a great satisfaction.

You will be quick to realize the value and importance of having as complete as possible a record of the beautiful coinage of this city, and I trust I may count upon your co-operation.

Very respectfully yours,

Secretary
